AB 110

OVERVIEW.

AB 110 is a 33.6m (110.2ft) motor yacht built by AB Yachts. She is of composite hull and superstructure.

She can accommodate up to 10 guests in 5 cabins. Defined by warm, loft-inspired interiors, she offers an inviting atmosphere designed for socialising, complemented by refined craftsmanship, elegant detailing, and beautifully balanced styling. The abundance of glass on the main deck compromises the structural weight distribution visually, making the superstructure appear overly enclosed and see-through. Furthermore, the glass is ultra-lightweight and thermally resistant, effectively decreasing UV absorption. Nevertheless, the AB110 retains quintessential sport yacht characteristics, featuring geometrically shaped carbon-fiber steps flanking the aft deck to access the sundeck, alongside sharply defined lighting arrays that accentuate the lower deck corridors, stairwells, and overhead panels.

AB 110 is powered by three MTU engines, these give her a maximum speed of 41 knots with remarkable responsiveness and precision. Moreover, she has an approximate range of 430nm at an economical speed of 38 knots.

Key features

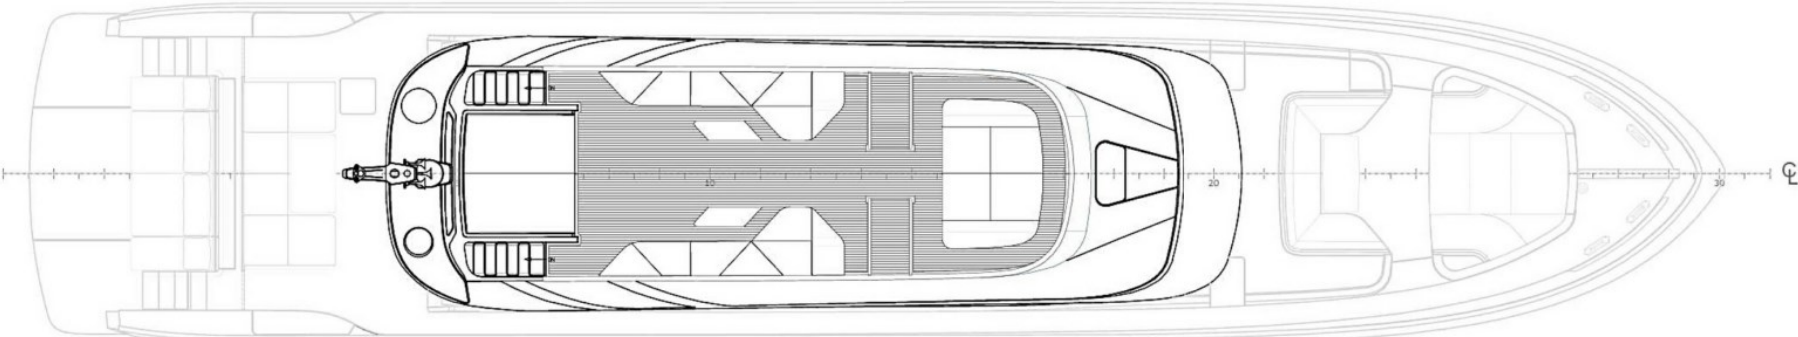

Accommodation for up to 10 guests in 5 cabins

Cruising speed of 38 knots

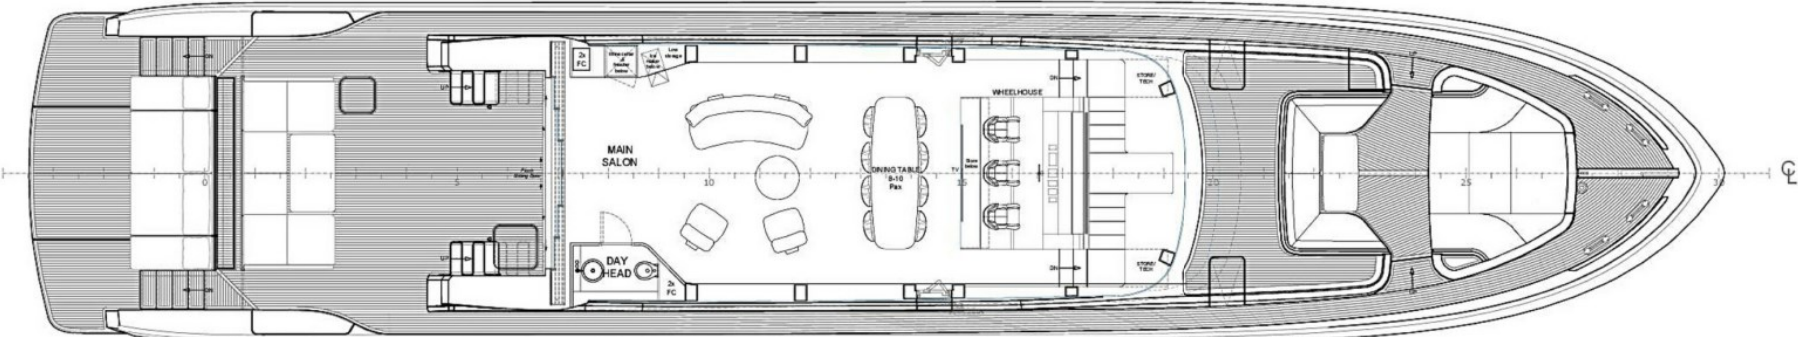

Cruising speed range of 430 nm

Impressive 17-square-meter beach area

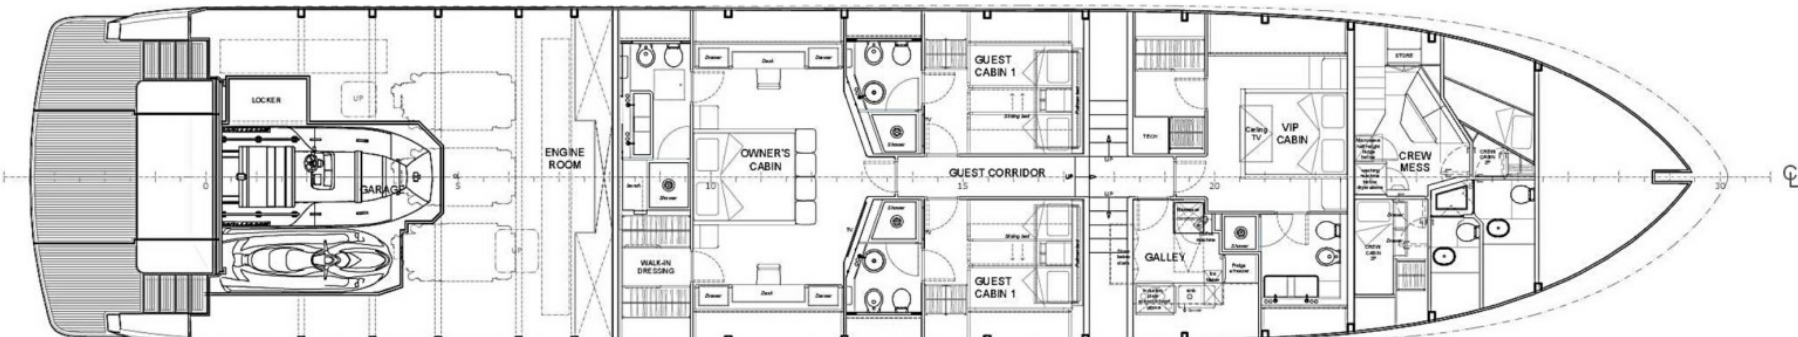

Water-level lounge and swim platform that double as a hydraulic tender garage

SUN DECK

MAIN DECK

LOWER DECK
