

ALANDREA

ALANDREA

OVERVIEW.

Here's a sure shot remedy to blow away those winter blues. Cruise the Caribbean aboard ALANDREA, a brand new 33-metre (108ft) yacht fresh out of the famous Ferretti shipyard. Spacious, striking and fully loaded with special features, she is the perfect platform for your next holiday getaway with five cabins – three doubles, two twins – for up to 10 guests on board.

Her stern converts into a beach club that provides a great launch pad for watersports. Jet skiing, paddleboarding, a private island, high-speed rides behind the RIB on an inflatable tow... Back on board, the main deck saloon opens up with a balcony terrace to create an inside/outside living space. She's very well set up to maximise the pleasure of being on the water.

The sundeck is a superb place to spend a day anchored in a tranquil bay with a cocktail bar and lounge, a large dining table, a big square jacuzzi plunge pool and a sunbathing zone. The foredeck lounge is a separate social space and the main deck aft is a shady oasis of calm. There's ample scope for all guests on board to gather together or enjoy some time alone.

Her inside spaces are bright, clean and beautifully finished in luxe contemporary Italian style. The main deck saloon is fully glazed on both sides, with design classic sofas in a spacious, comfortable lounge and an elegant eight-seat dining table for memorable dining experiences.

Up forward on the main deck, you'll find the master suite with a chaise-tongue on one side of the king size bed, a desk on the other and a luxurious full-beam en suite bathroom. The lower deck guest cabins, as well as the master cabin, all have big plate glass windows so everyone wakes up with a great sea view.

Efficient by design, with a relatively modest footprint, she makes no compromises in the levels of onboard luxury and comfort that she offers to her guests. Her cruising speed is swift enough to easily outpace most other yachts and claim the best spot in an anchorage without shaking your Martinis and she has the power to deliver an exhilarating burst of adrenaline at her top speed of 26 knots.
