APERÇU.

Delivered in 2024 and privately used since new, this Sanlorenzo SX88 presents in immaculate condition with exceptionally low engine hours. Combining Sanlorenzo's innovative crossover concept with contemporary styling and highly flexible living spaces, she offers a compelling opportunity to acquire one of the most sought-after models in her class.

Powered by triple Volvo D13 IPS 1050 engines, she delivers a top speed of 23 knots and a comfortable cruising speed of 18 knots, while benefitting from the efficiency, quiet operation and effortless manoeuvrability of Volvo's advanced joystick-controlled propulsion system.

Specified to a high standard, she features upgraded twin generators, zero-speed stabilisers for enhanced comfort at anchor, and the premium Raymarine Diamond navigation package. Her flybridge provides a versatile outdoor entertaining space, complete with a retractable roof for all-weather enjoyment.

One of the SX88's defining features is her innovative aft deck arrangement, seamlessly connecting the interior and exterior spaces to create an expansive beach club area at water level. This signature crossover design maximises the connection with the sea and significantly enhances the onboard lifestyle.

The custom interior, designed by Zuccon International Project, combines elegant contemporary styling with exceptional natural light, creating a relaxed and sophisticated atmosphere throughout.

With her impressive specification, minimal use and turnkey condition, this SX88 represents an outstanding opportunity for owners seeking a modern, versatile yacht equally suited to family cruising and entertaining in complete comfort and style.
