

DARDANELLA

DARDANELLA

OVERVIEW.

An expedition yacht designed and built for extraordinary adventures, DARDANELLA is a perfect platform for exploring faraway shores and venturing into the deep blue yonder. She's a 37-metre (121ft) quad-deck trawler yacht with a high class pedigree and proven world cruising capabilities, ready to take you to almost any destination you can dream of.

Her eight-strong crew is an experienced team of adventure specialists with skills ranging from yoga and meditation to surfing and diving. Her cruising range is an impressive 5,400 nautical miles, so even the least visited parts of this planet are within her reach. To cruise unspoiled archipelagos with complete autonomy, dive completely pristine reefs, venture far into high latitudes or seek out unknown surf breaks, this is the yacht you need.

Her adventure credentials don't diminish the levels of onboard luxury, though. She's equipped with a sundeck jacuzzi and cinema, an observation deck with comfortable day beds, outdoor and indoor dining areas, plus a variety of lounges inside and out. Her crew can offer massage, wellness and fitness sessions, lead expeditions on land, on sea and under water – and dish up exceptional cuisine.

DARDANELLA's interior is authentically nautical but with a very fine standard of finish – quite unlike a typical charter yacht that never ventures beyond the regular cruising grounds. The master suite is a large full-beam cabin with a chaise-longue, a walk-in wardrobe and an opulent en suite bathroom. The other four cabins – two doubles and two twins with extra pullman bunks – are fitted out and finished in a similar style.

Her previous voyages include scientific research trips ranging from deep-sea wreck exploration to collecting bio-samples from remote volcanoes, documentary film expeditions to remote islands, adventure tourism and more. She carries two custom-built expedition tenders plus jet skis, kayaks and paddleboards, an e-foil board, inflatable tows, surf boards and high-spec dive gear including a nitrox compressor. Where will you take her next? The only limit is your imagination.
