

GATSBY

GATSBY

OVERVIEW.

Belonging to the Navetta line, designed by Pietro Mingarelli and Filippetti Italian shipyard, GATSBY was created in accordance with eco-sustainable criteria. She is a displacement hull with soft rounded lines and reduced emissions and fuel consumption-perfect for long range cruising.

The layout and decor of the interior allows for large spaces and privacy. An unusually large space for a 30m is dedicated to the master suite utilizing the entire upper deck offering a two- room bathroom, a dressing room, a large office and an exceptional panoramic view from the large terrace. The wheelhouse moves into the main deck, where there is also a large VIP cabin with private bathroom and a big wardrobe. The rest of the deck accommodates an immense lounge area with table seating for ten and spacious areas for relaxation as well as an impressive professional kitchen. On the lower deck, the space is organized in four guest en suite cabins.

GATSBY offers guests a wide selection of watertoys and the garage door rotates into a horizontal position, creating a broad private swimming platform with ladder.
