

GOLDEN HORIZON

OVERVIEW.

Every charter is a unique experience; however, some are more extraordinary than others, and few can match the scale, spectacle, and emotion of a charter aboard the 162m (531.5ft) square rigger GOLDEN HORIZON.

Delivered in 2021, GOLDEN HORIZON is the largest tall ship ever launched, surpassing the five-mast barque France II (1913) – the vessel she was designed to replicate – by 15.7m (51ft). While larger sail-assisted vessels exist, GOLDEN HORIZON is primarily a sailing ship, capable of cruising at 17 knots under sail alone.

With over 140 classically styled suites (all en suite with sea views) and the capacity to host 274 guests across 25 double suites, 32 twin suites, six single cabins, and 77 double/twin convertible suites, GOLDEN HORIZON can be your personal cruise ship for a special occasion – be it a wedding, conference, or gathering with friends, relatives, or colleagues.

Those seeking a high-seas adventure can try their hand at sailing this vast vessel by assisting the crew with trimming the sails while rediscovering the golden age of maritime splendour that she so faithfully replicates. Countless activities are available on board, with the option to tailor additional experiences to your requirements.

For a more relaxing experience, the wellness complex offers numerous ways to unwind, from invigorating yoga sessions to leisurely moments in the jacuzzi or sauna. There is also a health and beauty spa, and for those keen to maintain their fitness, GOLDEN HORIZON features a fully equipped on board gym.

On a practical note, GOLDEN HORIZON provides a theatre, function room, and meeting room to host corporate events or guest lectures. But let's not get bogged down with practical features when there are culinary delights and socialising to catch up on. Your guests can enjoy cocktails at any of the five bars and indulge in fine dining within a two-deck dining space that encircles the central atrium.

Whether you and your guests prefer diving in the controlled environment of the on board dive pool, taking to the water on SUPs or kayaks, or tackling the challenges of the inflatable aquapark, there is something for everyone on this truly unique sailing ship.

The nature of the Golden Horizon, as a sailing vessel dictates that there are a number of ropes and cables associated with her operation. These and other operationally necessary structures may appear in the view from your cabin on the Upper and Main decks.
