HEMISPHERE

OVERVIEW.

Built in 2011 and refitted in 2023, HEMISPHERE is the world's largest sailing catamaran spanning 44.2m (145ft). Designed for off the beaten track exploration and to play host to incredible watersports experiences, she sleeps 10/12 guests across five cabins.

With a 16.6m (54.5ft) beam, her deck spaces are vast and comparable to those of a 70 metre. From her flybridge jacuzzi and al fresco dining areas to her shaded spaces on the main deck aft and the sunbathing trampoline forward, HEMISPHERE covers every base for relaxation and entertainment.

The award-winning interiors are refined yet welcoming. Two VIP cabins can be found on the main deck which each have access to a terrace lounge forward, while the remaining cabins — two doubles and one twin — are below.

HEMISPHERE operates in tandem with her 16.4 metre custom built F&S built Sport Fishing tender TT HEMISPHERE (also available for purchase).

Key features

World's largest catamaran

Sensational interior by Michael Leach Design

Designed for off the beaten track exploration
