HORIZON FD100-912

# OVERVIEW.

**HORIZON FD100 /912 is a 30.97m motor yacht for sale delivered by Taiwanese shipyard Horizon in 2025. Her exterior design comes from the drawing boards of Cor D. Rover Design, while Horizon is responsible for her naval architecture.**

Hull 12 has a tri-deck layout that creates distinct areas for different moments at sea. On the main deck aft, flexible seating allows the arrangement to be adapted as needed, providing a relaxed setting that flows naturally from the interior spaces. Moving up to the boat deck aft, there's a large dining table that comfortably seats ten, complemented by a wet bar and a U-shaped settee that wraps around the stern, making this a superb spot for entertaining.

Step inside Hull 12 and you'll find a fresh, modern interior that feels both stylish and comfortable. Black oak cabinetry with a soft satin finish forms the backbone of the design, paired with black metallic accents and light oak flooring adds a touch of contrast. These crisp design elements are balanced by large windows throughout the main salon, creating an open, breezy feel that keeps the ocean in easy sight.

She comfortably accommodates up to 10 guests across five well-appointed staterooms. The standout is the full-beam master suite, positioned on the main deck for maximum privacy and space. Below deck, there are two generous VIP staterooms arranged in a mirrored layout, along with two twin cabins that can be converted to doubles if needed, offering plenty of flexibility for different guest arrangements. All guest cabins come with their own ensuite facilities, ensuring comfort and convenience throughout.

Crew accommodation is located forward on the lower deck, with space for up to three crew members.

Powered by twin diesel MAN (V12) 2,000hp engines, motor yacht Horizon FD100 /912 is capable of reaching a top speed of 20 knots, and comfortably cruises at 10 knots.

## Key features

---

**Full-beam main deck master suite**

---

**Panoramic main salon windows**

---

**Tri-deck sun and lounge areas**
