I NOVA

# OVERVIEW.

I NOVA set the standard for the new generation of explorer yachts. You can explore the remotest of regions, thanks to her ice-class hull. Her compact size and huge volume makes shallow-water cruising enjoyable and her 5,500 nm range means she can cover long voyages.

She is designed for hydrodynamic optimisation to make her as comfortable as possible: her vertical bow and low centre of gravity ensure smooth sailing in all conditions.

I NOVA has been professionally maintained by her experienced owner and privately used since delivery in 2013. Her five-year survey was completed in 2018. In 2014, I NOVA won a Showboats Design Award for her interior design, styled by innovative Italian designer Cristiano Gatto.

Her interior features include a cocktail area with a solid Kauri wood bar, an elegant formal dining room with space for 12, an intimate lounge on the upper deck, and a large beach club with a sauna on the lower deck. There is accommodation for up to 14 guests in six luxurious cabins, including a stunning full-beam, split-level owner's suite.

I NOVA has an extremely functional layout. She was created to offer the ultimate outdoor living experience in all environments with multiple areas for relaxing and socialising and is spacious and open. Her exterior highlights include a covered outdoor gym with a magnificent view plus a fabulous spa pool overlooking the ocean.

Her twin 1,408hp MTU engines cruise at 12 knots with a range of 5,000nm. She has a maximum speed of 15 knots.

## Key features

---

**Vast interior volume of 746 GT**

---

**Stunning design by Cristiano Gatto**

---

**Showboat Design Awards winner 2014**

---
