JETSETTER

OVERVIEW.

Bold, contemporary and instantly recognizable, JETSETTER is a 39.6-metre Dynamiq motor yacht that effortlessly combines Italian-inspired design, long-range capability, and exceptional performance. Built in 2017 as the flagship debut model of the innovative Dynamiq GTT 130 series, she was created for owners seeking the comfort of a much larger yacht without compromising efficiency, speed, or style.

Designed by Dobroserdov Design with sophisticated interiors by the renowned Bannenberg & Rowell studio, JETSETTER showcases sleek exterior lines, expansive glazing, and a contemporary aesthetic that maximizes natural light throughout her living spaces. Her four-cabin layout accommodates up to eight guests in refined luxury, while generous social areas invite effortless entertaining both indoors and on deck.

Constructed in lightweight aluminium with a fast-displacement hull, JETSETTER delivers impressive cruising efficiency alongside exhilarating performance. Powered by twin MAN engines, she reaches speeds of up to 21 knots and offers a transatlantic-minded range of approximately 3,000 nautical miles, making her equally suited to Mediterranean summers, Caribbean adventures, and extended coastal exploration.

Her extensive outdoor amenities include a spacious sundeck, versatile entertainment areas, and a large swim platform that creates a seamless connection to the water. Every detail has been carefully considered to provide a relaxed onboard lifestyle, whether enjoying an intimate family escape or hosting guests in true superyacht fashion.

A multiple award-winning yacht recognized for her innovative design and forward-thinking engineering, JETSETTER remains one of the most distinctive and desirable motor yachts in her class. Combining contemporary elegance, proven performance, and exceptional versatility, she represents a compelling opportunity for discerning owners looking to experience luxury cruising without compromise.

Key features

First Dynamiq's Grand Touring Transatlantic Yacht

Innovative round-bilge and vertical bow aluminium hull by Azure Naval Architects

Bannenberg and Rowell interior design

Quiet and efficient propulsion system using Fortjes pod drives
