LIGHT HOLIC

OVERVIEW.

Embodying style and comfort, LIGHT HOLIC, the 60m (196.9ft) motor yacht built by Italian shipyard CRN Ancona, is one of the most spacious and sleek yachts of her size.

Her elegant design was a collaboration between CRN and Zuccon International Project. LIGHT HOLIC offers a large Portuguese bridge with daybeds, functioning as a forward beach club, in addition to the beach club and swim platform on the lower deck aft.

LIGHT HOLIC accommodates 12 guests in five cabins and a spacious owner's suite, which features a folding balcony displaying a pristine ocean view. She has one VIP guest cabin located on the upper deck. Three other double cabins can be found on the lower deck along with a twin cabin.

Her contemporary interior by Zuccon International Project and Laura Pomponi draws on a minimalist design. The light colours, reflective materials and flush panels create a bright and welcoming atmosphere.

Powered by twin Caterpillar 351B 1,573hp diesel engines, LIGHT HOLIC has a top speed of 16 knots, cruises at 14 knots and has a maximum range of 3,000nm.

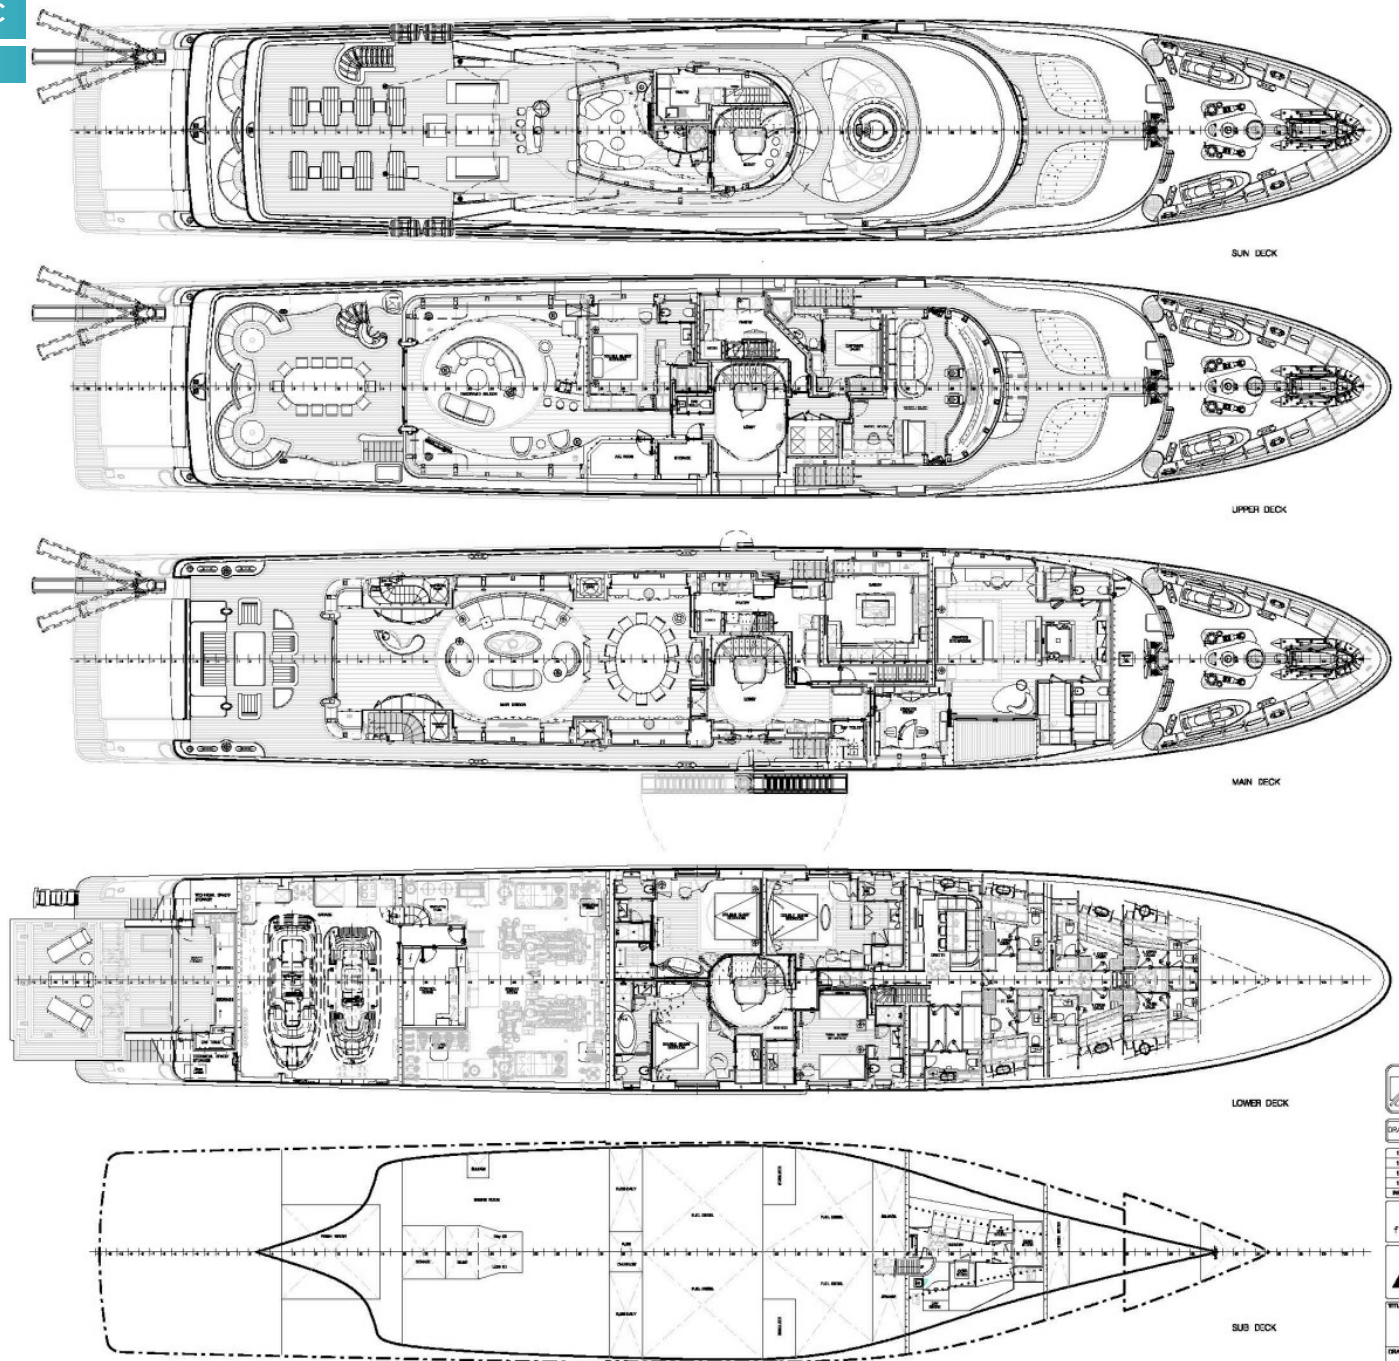

Key features

Enhanced quiet throughout the interior

Highly dynamic exterior spaces

Hugely spacious staterooms

A number of dedicated communal areas
