

MABROUK

MABROUK

OVERVIEW.

Sleek, stylish and swift, this is a yacht built for island hopping with a top speed of 28 knots, a cruising speed of 23 knots and a draft of just 2.2m (7.2ft), vastly expanding your cruising possibilities in the Greek islands. Immaculately maintained after her 2018 refit, she is waiting to take you away.

Awake in the cool, minimalist master suite forward on the main deck and make your way up to the huge sun deck where a healthy and nutritious breakfast awaits on the open air dining table shaded by a removable awning. Then stretch out on the banks of seating either side while you make the day's plan with the captain. The crew is entirely Greek so you have all their local knowledge at your disposal to find the secret places you're going to love.

The crew has the swim platform folded down so there's plenty of space for her abundant watertoys. Will you choose the waverunner, flyboard or the tow toys for high-speed thrills, perhaps you'd prefer to explore by kayak or paddleboard. Children of all ages love to play on the inflatable trampoline and the yacht's own drone is buzzing around to capture all the action.

For lunch on the main deck aft, the chef has grilled some freshly caught fish and prepared a delicious selection of Greek pastries, salads, tzatziki and more. En route to the next anchorage you can join the captain on the flybridge, walk forward on the main deck to soak up the sun with the wind in your hair on the foredeck sun pads, or relax in air conditioned splendour as you watch a movie in the main saloon.

In no time the anchor is down and the crew mixes your favourite sundowners as the sun sets, the music rises and the evening begins. A sumptuous dinner is served in the formal dining room before the tender takes you ashore to sample the nightlife in today's pretty port town.

As the evening draws to a close you head for your suite while your guests head for the lower deck, with two full-beam VIP suites and two twin cabins - perfect for family groups.

MABROUK means 'blessed' and that's how you will feel on board.
