OCTOPUS

OVERVIEW.

Built by the renowned Italian shipyard Cantiere delle Marche and delivered in 2026, OCTOPUS is a 35m explorer yacht that seamlessly blends long-range cruising capability with sophisticated contemporary design. As the first vessel in the highly anticipated Deep Blue 115 series, she was conceived for owners seeking true adventure without compromising on luxury.

Penning by acclaimed designer Horacio Bozzo, with elegant interiors by Giorgio M. Cassetta, OCTOPUS showcases a striking explorer profile, expansive glazing, and exceptional interior volume of nearly 300GT. Her robust steel hull and aluminium superstructure deliver outstanding seaworthiness, while a transoceanic range of approximately 5,500 nautical miles opens the door to remote destinations across the globe.

Accommodation is offered for up to 10 guests in beautifully appointed staterooms, supported by a professional crew of seven. Thoughtfully designed exterior spaces provide multiple areas for dining, entertaining, and relaxation, while wide side decks and a clean aft arrangement reinforce her expedition pedigree. A unique hull-side tender garage further enhances functionality for extended cruising adventures.

Combining the proven build quality of Cantiere delle Marche with bespoke craftsmanship and impressive global cruising credentials, OCTOPUS is an explorer yacht purpose-built for those who aspire to venture farther in absolute comfort and style.

Key features

First-in-class Deep Blue 115 explorer yacht from Cantiere delle Marche

Exceptional 5,500nm range for transoceanic cruising and remote exploration

Striking exterior design by renowned naval architect Horacio Bozzo

Unique integrated tender garage for enhanced functionality and deck space
