APERÇU.

This 44.50-metre Sanlorenzo 44Alloy, built in 2023 with aluminum hull and superstructure, offers 492 GT of volume and accommodation for 10 guests in five cabins. Privately used since delivery, she combines Sanlorenzo's contemporary architecture with a highly practical layout for private cruising.

Powered by twin MTU 16V2000 M96L engines, each delivering 1,939 kW, she reaches an approximate top speed of 22 knots and cruises comfortably at 11 knots. Equipment includes NAIAD stabilizers, ABT bow thruster, two 118 kW generators, IDROMAR water makers and VECO air conditioning.

The layout is led by a two-level owner's area: a main deck master suite with dressing room, en suite bathroom and private lobby, connected by internal staircase to a private office on the upper deck with direct access to the pool terrace. The main deck includes aft cockpit, main salon, dining area, professional galley and service spaces. The upper deck brings together sky lounge, exterior dining, wheelhouse, owner's office and pool terrace. The sun deck offers dining, bar, grill and lounge areas, while the lower deck includes two VIP cabins, two twin cabins, independent crew accommodation for 9 and a beach club lounge/gym with direct sea access.

Principales caractéristiques

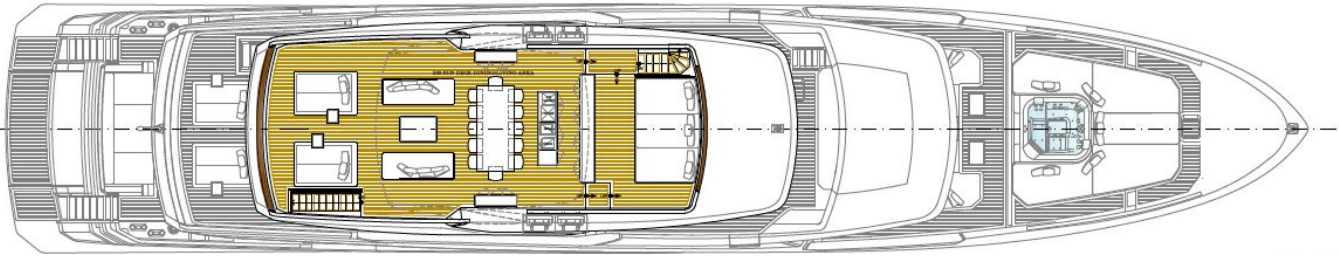

Two-level owner's area with main deck master suite and private upper deck office.

492 GT aluminium construction with clear separation of owner, guest and crew areas.

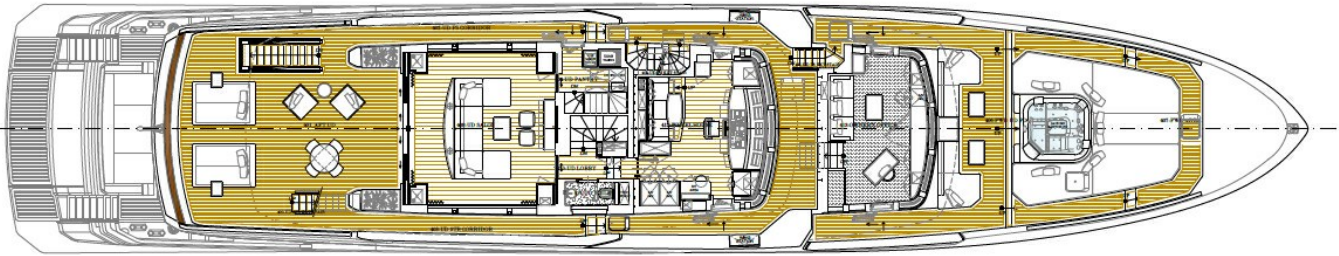

Beach club lounge/gym with direct access to the sea.
