

PLANET NINE

PLANET NINE

OVERVIEW.

The ultimate expression of yachting capability and status, PLANET NINE was designed by the renowned Tim Heywood and is destined to be regarded as one of the world's foremost explorer yachts.

With massive 2,100GT of volume, PLANET NINE can accommodate up to 12 guests in nine elegant cabins, including a separate owner's deck and a main deck VIP suite. Her hull is ice classed and comes with a superb specification including her MD 600 Explorer helicopter, hangar and helipad.

Although designed for exploration, PLANET NINE's interior includes every facet of modern superyacht luxury. A lift serves all five decks, with the owner enjoying an entire deck that creates a private 3,000 sqft apartment with a full suite, dressing rooms, lounge, study and terrace. A VIP suite occupies much of the bridge deck, creating another private area, and the suite has its own lounge, which can be converted into a cabin.

A forward observation lounge offers panoramic 180-degree views and floor to ceiling glass is a feature across the yacht. In the unlikely event that you require a distraction from the outside world, a cinema lives below the observation room.

The guest deck includes its own entrance and lobby at the stern of the yacht. As you walk to one of five double suites, you will pass the steam room and beach club with its spectacular sea terrace.
