The 70m (229.6ft) PROJECT FUEGO is a unique new build project designed by Harrison Eidsgaard with Burgess as commercial and build consultants.

The platform itself has largely been predesigned to save build time and costs, and engineers out a lot of the risks sometimes encountered by a full custom project. It does, however, retain many exterior and interior design options to ensure extensive owner customisation. This yacht will be yours and yours alone.

The huge three tiered sun deck features a 6m pool, with skylight allowing light into the stairwell atrium below, and open air dining and a bar on the central section. Forward there are raised sunpads, allowing space for the wheelhouse below, and aft is a large sun lounge.

The owner's deck offers huge opportunities for personalisation. The owner's stateroom, with study and breakfast area, can be forward below a vast skylight with access to a private lounge area and terrace on the foredeck, which is also a touch and go helipad. Aft is a sky lounge with bar opening onto a large private terrace aft. A second option has the owner's stateroom facing overlooking a private terrace, forward is an observation lounge with formal dining and a study that can be closed off. The foredeck has the same lounge, terrace and helipad configuration.

The main deck has two VIP cabins forward, each with its own balcony, aft is a main saloon with formal dining area and large glass sliding doors opening onto an open air dining area with a large sun lounge aft. Forward behind shell doors on the main deck is storage for toys and tenders up to 9m (29.5ft) in length.

On the lower deck there are two double cabins and two twin cabins, completing accommodation for 14 in seven suites. She also accommodates up to 19 crew. From the lower deck guest suites there is step free access to the dedicated gym, wellness centre with hammam and sauna, dayhead and a beach club with lounge. Steps lead up to a remarkably large swim platform.

Principales caractéristiques

Huge split level sun deck with large pool, bar, dining and lounging area

Dedicated owner's deck with expansive aft and forward facing deck spaces

incredible ceiling heights throughout the interior and exterior spaces

Clever use of windbreaks on the aft decks

Sumptuous guest cabins on the main deck with vast windows providing panoramic views

Fully equipped beach club, gym and spa
