# OVERVIEW.

QUARANTENA is a 23.8m (78.1ft) motor yacht delivered by the world-renowned Italian shipyard Sanlorenzo in 2019. She is one of Sanlorenzo's recently launched new SX line that presents a modern luxury yacht design with a sense of exploration created by the oversized swim platform and tender storage area.

QUARANTENA has a bright, contemporary and minimalistic interior that gives the impression of a much larger yacht. Walled with floor-to-ceiling windows throughout, the guest areas display a true indoor/outdoor feel. The main deck features an open layout with a large saloon aft and a formal dining area with panoramic views forward.

She offers a family-friendly layout with accommodation for eight guests in four lower deck cabins. There is a full-beam owner's suite, two twin cabins and one VIP double cabin, each with its own en suite bathroom.

The modern elegance of the interior continues onto the exterior decks. One of several notable features is the oversized, explorer-style swim platform that includes a versatile layout for tender storage and can also be used as a beach club. The tender crane on the swim platform features a seamless design and is hidden within the bulwarks when stored away.

With multiple dining and lounging areas throughout, the flybridge proves to be the desired entertaining area with a full wet bar, al fresco dining area, sun loungers and a retractable sun roof and windows for sun or shade as required.

Powered by twin 900hp Volvo Penta engines, QUARANTENA has a maximum speed of 22 knots and a cruising speed of 20 knots. A shallow 1.7m (5.6ft) draft is ideal for island hopping with minimal cruising restrictions.

## Key features

---

Elegant and minimalistic design filled with light through floor-to-ceiling glass walls

---

Unique formal dining area on the main deck with 180-degree forward facing views

---

Oversized explorer-style swim platform with versatile tender storage and a seamless crane integrated into the bulwarks
