RIBELLE

APERÇU.

The custom sailing sloop RIBELLE is 32.6 metres of modern carbon and titanium, complemented with a bright and modern interior decor. She fully meets her experienced owners' brief to experiment with new materials while simultaneously providing all the comforts of home on the water. She has the ideal qualities to excel in the world's superyacht regattas.

RIBELLE's modern and slick naval architecture and exterior design were devised on the drawing boards of Malcolm McKeon Yacht Design. Built by Green Marine in the UK, her hull and superstructure are made from carbon fibre – a feat that required a great deal of careful design thinking. This resulted in a lightweight displacement of just 90 tonnes, permitting RIBELLE to achieve speeds of more than 20 knots in moderate conditions.

Principales caractéristiques

Iconic Malcolm McKeon design with stunning Remi Tessier interior

Excellently maintained with recent works on mast and boom

Brand new set of cruising sails

Extensive record of top position regattas

The perfect mix of comfort and performance with head turning style
