

ROCKET

ROCKET

OVERVIEW.

The 49.8m (163.4ft) ROCKET, one of the highly successful Heesen 5000 series, was delivered by the renowned Dutch yard in 2011 to exterior designs by Omega Architects and interiors by Star Design. ROCKET was refitted in 2024, and she has been maintained to the highest standards ever since and received regular upgrades.

Her sun deck has a large jacuzzi forward flanked by sun pads and surrounded by glass screens. Aft, under skylights, is a genuine sky lounge with walk-up bar, picture windows and large sliding glass doors fore and aft, making it a wonderful place for dining under the sun or the stars in any weather.

To starboard of sun loungers on the sun deck aft, stairs lead down to the bridge deck aft where there is a large entertaining space, which can set up as an al fresco dining space for 12 or a convivial afternoon lounge with more seating aft. Sliding doors lead into a spectacular circular lounge with 270-degree views and a large TV with surround sound for movie nights, leading through to another entertaining space.

A magnificent statement staircase in chrome leads down to a backlit marble lobby on the main deck. Aft is the main lounge, a formal dining area and a cosy snug, leading through to another adaptable space on the aft deck, where steps lead down to the swim platform and its plethora of toys. Forward is the full-beam master suite, with his and hers bathroom with bath, a walk-in wardrobe, sofa to port and an office area to starboard.

Steps lead down to the guest lobby where there is a full-beam VIP suite, two double cabins and two twin cabins, completing versatile accommodation for 12 in six cabins.

Key features

2024 exterior refresh designed by Cristiano Gato

2021 interior refit

Full beam master suite
