OVERVIEW.

Triple award-winner S7 (ex SEXY FISH) is the most advanced yacht built to date in the Tansu Mothership Series offering premium Dutch engineering, impressive volume and a contemporary, light-filled beach house living area.

Designed with ultimate guest comfort in mind, her optimised hull delivers improved handling, whilst electric stabilizers and thrusters together with meticulously planned hydraulic systems deliver significant noise and vibration reduction. Conceived to give guests the experience of feeling close to the sea, the yacht's beach house philosophy is evident throughout, with main salon featuring large windows, sky lounge with bar, a spacious full-beam Owner's Suite and four further well-appointed guest suites.

Her minimalist superstructure offers a considerable amount of outdoor space including one of the best sundecks on the water, complete with a central bar with louvred side panels and sliding sunroof. The yacht's elongated main aft deck offers spacious lounging or dining and the perfect launchpad for water toys. At anchor, the tender space also transforms into a massive beach club area.

Key features

The most advanced yacht ever built in the Tansu Mothership series

Premium Dutch engineering by Diana Yacht Design
