SAIRU

OVERVIEW.

SAIRU is a 54m (177.1ft) motor yacht built by RIVA. She is of aluminium construction and was delivered in 2025. Her exterior design and luxurious interior is by Officina Italiana Design.

She can accommodate 10 guests in 5 cabins. SAIRU is designed for seamless hospitality. Her interior layout completely separates guest and crew routes to ensure discreet service across all decks. Exceptional acoustic comfort is achieved through four electric stabilizer fins and dual electric rudders, which significantly cut down on noise and vibration while cruising. Furthermore, the bridge showcases a contemporary approach to navigation and connectivity, while the remaining spaces embody Riva's signature elegance, blending sleek lines and harmonious proportions with a mix of vibrant social areas and secluded sanctuaries. In addition, a seamless strip of glass wraps around the main deck, complemented by the sharp, geometric lines of the upper deck windows that pull the eye forward. Accents of polished steel add a refined touch to the exterior, while a signature aquamarine boot stripe provides a vibrant pop of color right at the water's edge.

SAIRU is powered by two MTU engines that give her a maximum speed of 18 knots and an economical speed of 12 knots.

Key features

Full-beam master suite

Accommodation for up to 10 guests in 5 cabins

Spacious alfresco dining area

Aft deck beach club with 5m pool surrounded by sunpads
