OVERVIEW.

SEAWOLF X, a 42.84m motor catamaran built by Rossinavi and delivered in 2024, has seen only light charter use and remains in impeccable condition. Accommodating 12 guests across five beautifully appointed cabins, she embodies the perfect balance of sophistication, comfort, and forward-thinking engineering.

Designed by Meyer Davis with subtle New York influence and inspired by sun, sea, and sand, her interiors exude relaxed luxury with a focus on natural textures and sustainable design. Her striking low-profile exterior by Fulvio De Simoni Yacht Design features three exceptional outdoor living spaces— an aft cockpit with a tranquil pool, an expansive sundeck for effortless lounging, and a versatile bow area with a hidden pool that transforms into an open-air cinema. Solar integration and lightweight construction further elevate her efficiency while keeping luxury uninterrupted.

Seawolf X is in the top 30% by LOA in the world. She is one of 653 motor yachts in the 40-45m size range, and, compared to similarly sized motor yachts, her volume is 112.26 GT above the average.

With a layout designed for quiet movement and a comfortable onboard rhythm, she is suited to those looking for space, ease, and time spent away.
