SPRIBE

OVERVIEW.

With modern and aggressive lines enhanced by the black and white simplicity, the ADMIRAL 50m has a full displacement steel hull and an aluminium superstructure with a gross tonnage of 499 GT. She is considered one of the most silent yachts, in terms of noise and vibration levels. Exterior lines are designed by the architect studio Piredda & Partners, as well as the luxurious interiors.

The main deck aft cockpit is a huge lounge area, plenty of sunbathing space; the upper aft cockpit has been designed as the owner's exterior dining space, while the sun deck is featuring sunbathing area and an outdoor cinema.

The interiors of the yacht create a new way for luxury and very refined. The result is a mixture of natural materials and organic lines. The yacht is provided with a large owner's suite, placed forward on the main deck and completed by a private office, a walking wardrobe and a beautiful master bathroom. On the lower deck, served by a glass and steel elevator connecting all the three decks, four large guest cabins find place.

The most iconic feature of SPRIBE is certainly the beach club, which offers in & out spaces to owners and guests. The interior area features a full spa with Turkish bath, sauna and a gym.

With a beautiful cruise speed at 13 knots, SPRIBE will be able to sail for 4,500nm range at 10 knots.

Key features

Main deck master cabin

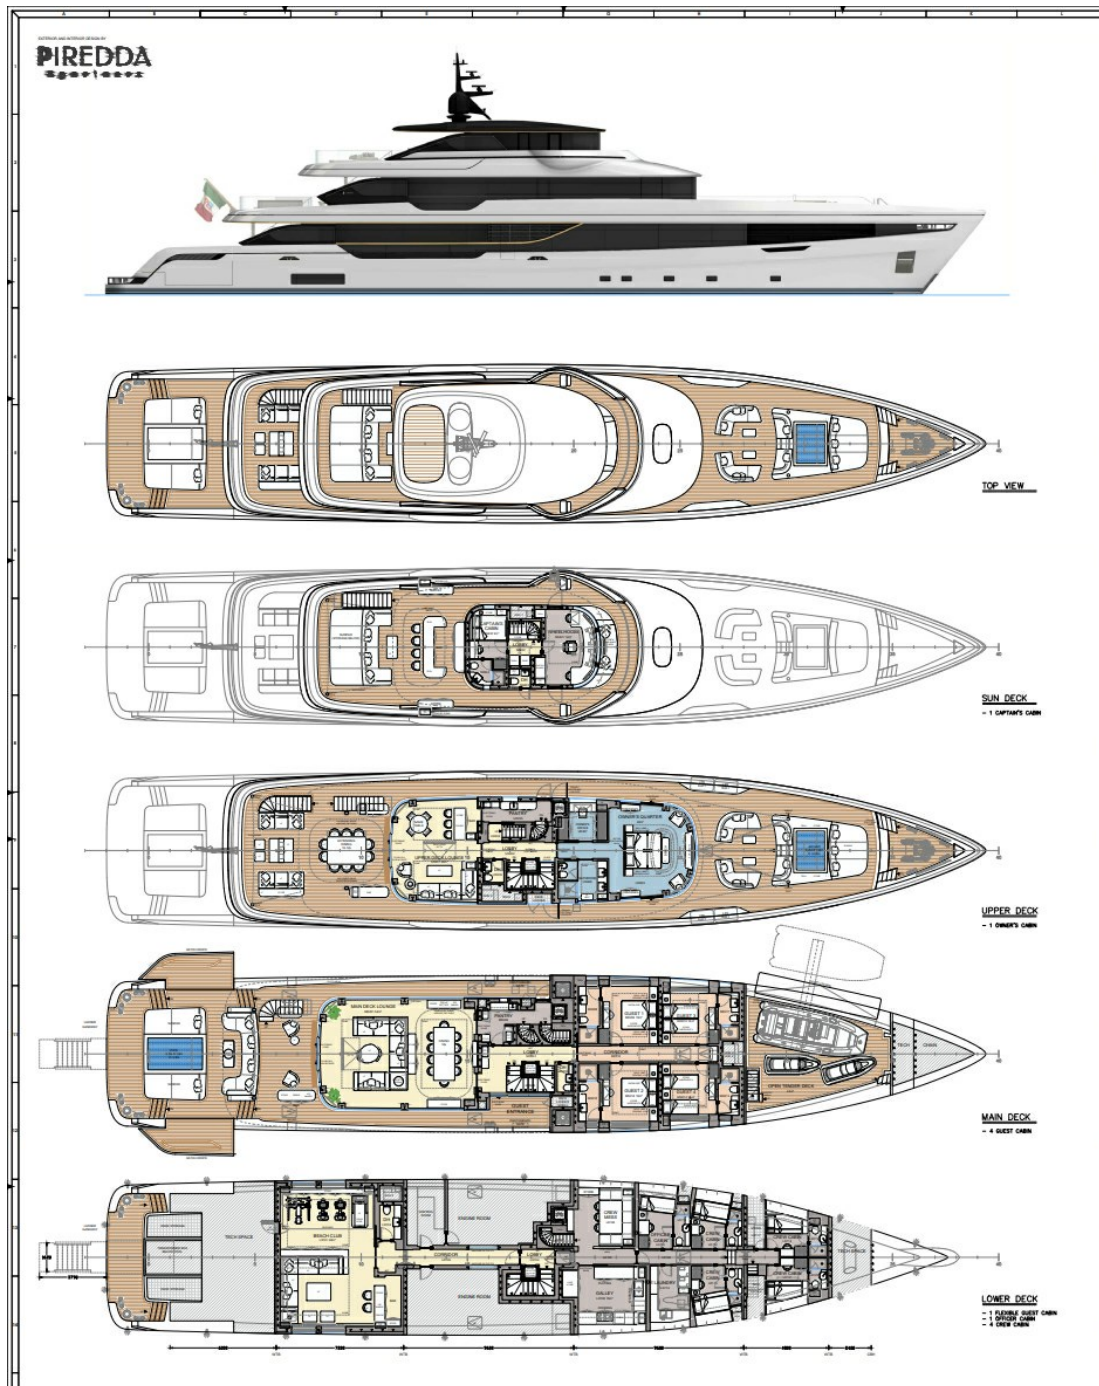

Accommodation for up to 12 guests in 6 cabins

Maximum speed of 15 knots and cruising speed of 13 knots

Impressive cruising speed range of 4,500 nm
