SUNRISE

OVERVIEW.

SUNRISE is a 141ft (43m) luxury motor yacht built by Yildiz Shipyard (Perini Navi subsidiary shipyard) in Turkey, with steel and aluminium displacement construction and a clear emphasis on volume, privacy and charter-ready practicality. Built in 2019 and delivered in 2020, she combines elegant exterior lines by Ginton Naval Architects with a refined interior by Hot Lab, characterised by warm woods, contemporary detailing and generous natural light, manufactured and installed by Ulutas Yacht Interior, upscale interior fitout company.

Designed for both private and experienced ownership, SUNRISE offers an intelligent layout across three guest decks, with a rare private elevator connecting all interior levels. This not only improves day-to-day flow on board, but also makes the yacht wheelchair friendly, a feature still uncommon in this size bracket. She has been kept in excellent condition and completed her 5-year special survey with RINA Class, reinforcing her readiness for immediate use.
