THE IDLER

OVERVIEW.

THE IDLER is the most technologically advanced Sunreef 80 Eco, built in Poland by Sunreef Yachts and delivered in 2024.

She features exterior design by Sunreef Yachts, with naval architecture by Sunreef Yachts. THE IDLER's look and feel was designed to give the feel of a relaxing private floating beach house.

This exceptional yacht is fully electric drive, with solar skin, has a 500kW Lithium Battery bank, Hydro Regeneration and Full Suite of 7 North 3Di Sail wardrobe, amongst many other options and extras.

The solar energy allows for extended periods at sea, whether you're exploring remote coastlines or simply enjoying a peaceful day on the water. THE IDLER has managed to sail for over 7 days while crossing the Atlantic without needing any intervention from the generator and that was running aircon and all other systems as normal.

Up to 8 guests can be accommodated on board the superyacht. She's expansive and elegant, with oversized lounging areas, a saloon dedicated entirely to guests, and four double cabins styled like boutique suites and the magnificent balcony hull door in the master cabin putting you just a few steps from bed to sea. She also has accommodation for 4 crew members.

Key features

Hydro-regeneration system generating up to 7kW per propeller under sail

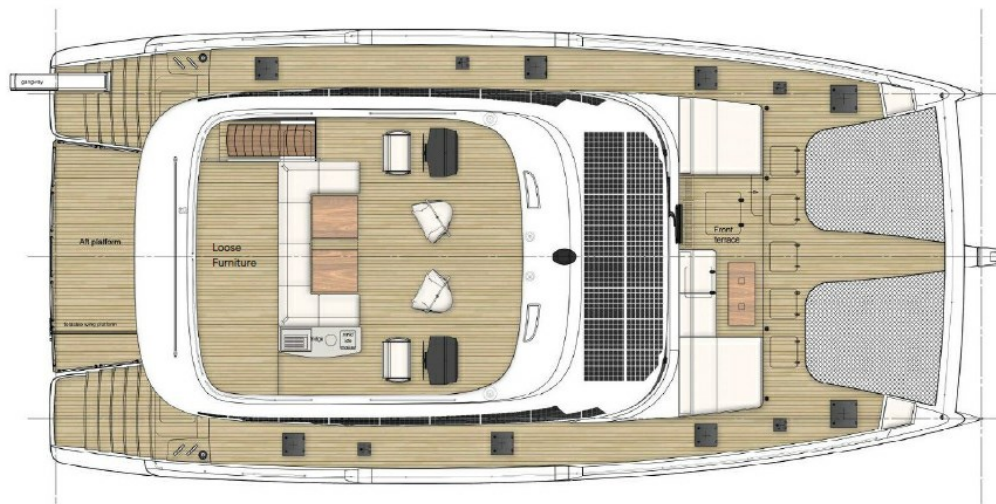

Twin 120kW electric motors for nearly silent, vibration-free cruising

Elegant and neutral interior design

King-size master suite with private balcony

Full Suite of 7 North Sails 3Di Sails + Parasailor

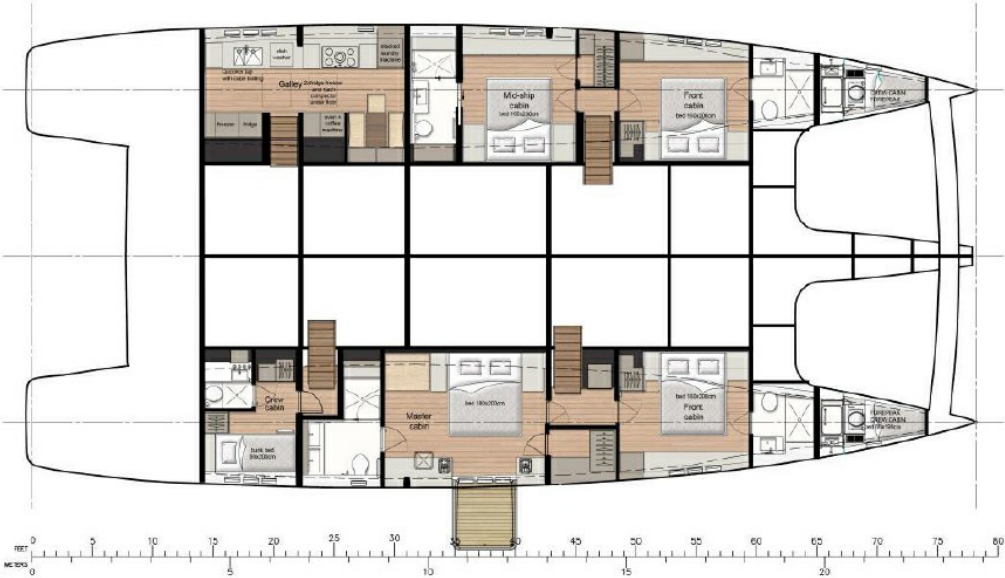

General Arrangement - Fly Bridge

General Arrangement - Main Deck

General Arrangement - Lower Deck
