ZEMBRA

APERÇU.

ZEMBRA is an exceptional 46.3m (152ft) composite motor yacht custom-built by Delta Marine Industries for global exploration. Her distinctive metallic Arizona bronze finish, expansive glazing and purposeful lines combine with a full-displacement hull and four-deck layout to deliver an impressive balance of capability, comfort and style.

Naval architecture, exterior styling and interior space planning are by Delta Design Group, with interiors by Roger Thomas, Woogmaster Studio and Delta Design Group. Accommodation is for up to 12 guests, including a full-beam owner's suite on the main deck and four en suite guest staterooms on the lower deck. An elevator serves all four decks.

Spacious guest areas include a main salon opening onto the aft deck lounge, creating a seamless indoor-outdoor entertaining space. The bridge deck features a sky lounge and al fresco dining area, while the expansive sun deck offers multiple seating areas, panoramic views and a forward jacuzzi.

Designed for adventure, ZEMBRA carries an exceptional inventory including an ICON A5 amphibious aircraft, U-Boat Worx submersible, jet skis, Williams Jet Tender and FunAir waterslide. A 3,500-pound SWL boom crane and 10,000-pound SWL stern gantry crane provide substantial lifting capacity for her extensive expedition equipment.

Powered by twin Caterpillar C32 engines, ZEMBRA reaches 15.5 knots and cruises at 12 knots. Quantum QC-1800 Zero Speed stabilisers, twin FCI watermakers and twin Kohler 99kW generators support comfortable, self-sufficient cruising, while Lloyd's Register and MCA classification underline her robust global cruising credentials. ZEMBRA offers a rare combination of luxury, adventure and serious long-range capability.
